A Message from the Chief Executive Officer

During FY 2019-2020, Arizona Public Media enjoyed exceptional audience growth on every platform: television, radio, and online, including exponential growth for AZPM Passport, its video-on-demand member benefit. Such growth can be attributed to AZPM's commitment to creating and providing quality programming. AZPM staff members were honored with 8 individual Emmy® Awards for four projects, including a win for the special documentary project *The Arizonans*, and the second consecutive win for <u>Arizona 360</u>. <u>Arizona Illustrated</u> earned nods in two categories: arts/entertainment and societal concerns. AZPM also received two regional Edward R. Murrow Awards for journalistic excellence in the categories of multimedia and feature reporting. AZPM's flagship television station, PBS 6, was again ranked the #1 public television station in the country for full week viewership during the May sweeps period.

One of the major initiatives begun earlier this year was to establish NPR 89.1 as a fulltime News and Information radio station featuring a mix of locally produced programs and those from NPR. In addition, a new FM frequency, 104.5 FM, was added to the lineup providing improved signal reception for residents in Catalina and SaddleBrooke. The new radio service on 104.5 FM joined AZPM's growing family of NPR stations, which include 89.1 FM and 1550 AM in Tucson, 88.9 and 91.3 FM in Sierra Vista, and, soon, 91.1 FM in Nogales.

During the first part of the fiscal year, AZPM organized and participated in dozens of educational and community events. Then, in mid-March, AZPM, like so many other organizations across the country, was significantly affected by the outbreak of the coronavirus (COVID-19) pandemic. To help flatten the curve, station protocols were adjusted to accommodate CDC safety guidelines, including implementing some remote operations and having non-essential staff members work from home.

In the initial weeks of the pandemic, 100% of AZPM's local production capability was redeployed to cover stories about the coronavirus and to support the newsgathering that helps to keep audiences informed and safe. Ongoing reporting on all aspects of the pandemic continues online on PBS 6 and on NPR 89.1. Arizona 360 and The Buzz have continued to provide viewers and listeners with in-depth analysis of the latest state and local news, while Arizona Spotlight and the newly rebranded Arizona Illustrated have taken a more personal look at how the pandemic is affecting individuals in Southern Arizona.

PBS and PBS KIDS programming remains a safe and educational choice for children and families. In response to the pandemic, AZPM formed a partnership with Arizona PBS to provide educational content to students and educators statewide affected by school closures. Arizona At-Home Learning, a suite of free digital learning resources and an educational broadcast schedule of programs aligned with state curriculum standards, launched in March and continues to provide remote learning resources for students through a website and television programming endorsed by the Office of the State Superintendent of Public Instruction.

AZPM remains a widely respected and successful public media organization that consistently earns top national rankings on all of its media platforms and receives significant support from the communities it serves. It will continue to provide compelling and timely programming from award-winning journalists and producers and looks forward to many more years of serving audiences and the Southern Arizona community.

Sincerely,

Jack Gibson

Independent Auditors' Report

Board of Directors and Management Arizona Public Media Tucson, Arizona

We have audited the accompanying financial statements of Arizona Public Media, a division of the University of Arizona, as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Arizona Public Media as of June 30, 2020 and 2019, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of AZPM's proportionate share of the net pension liability, schedule of pension contributions, and schedule of AZPM's proportionate share of the total OPEB liability, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The message from the General Manager and statements of functional expenses by station are presented for purposes of additional analysis and are not a required part of the financial statements.

The message from the General Manager has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

The statements of functional expenses by station are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statements of functional expenses by station are fairly stated, in all material respects, in relation to the financial statements as a whole.

Beach Fleischman PC

Tucson, Arizona November 19, 2020

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEARS ENDED JUNE 30, 2020 AND 2019

INTRODUCTION AND REPORTING ENTITY

The following discussion and analysis provides an overview of the financial position and activities of Arizona Public Media (AZPM), a division of the University of Arizona (the University or U of A), for the years ended June 30, 2020 and 2019.

This discussion has been prepared by management and should be read in conjunction with the financial statements and the accompanying notes, which follow this section.

USING THE FINANCIAL STATEMENTS

The financial statements include three statements: the Statements of Net Position; the Statements of Revenues, Expenses and Changes in Net Position; and the Statements of Cash Flows.

The Statement of Net Position presents the financial position of AZPM at the end of the fiscal year and includes all assets, deferred outflows, liabilities, and deferred inflows of AZPM. Assets and liabilities are classified as either current or noncurrent. Current liabilities are obligations that will be paid within one year of the statement date. Current assets are those resources available to satisfy current liabilities. The difference between total assets and deferred outflows and total liabilities and deferred inflows, referred to as net position, is one indicator of the financial condition of AZPM. Generally, assets and liabilities are measured using current values. One notable exception is capital assets, which are stated at historic cost less an allowance for depreciation.

The Statement of Revenues, Expenses and Changes in Net Position provides information about AZPM's financial activities during the year. Revenues and expenses are classified as either operating or nonoperating, and all changes in net position categories are reported, including capital contributions and additions or reductions to endowments. As a University licensee, general appropriations from the University, along with contributions and investment income are considered nonoperating revenues. Therefore, as a result of these standards, AZPM will typically appear to operate at a loss. By comparison, the total change in net position is a better indicator of whether the overall financial condition has improved or worsened during the year.

The Statement of Cash Flows reflects the inflows and outflows of cash and cash equivalents during the year. It shows the various cash activities by type, reconciling the beginning cash and cash equivalents amount to the ending cash and cash equivalents amount, which is shown on the Statement of Net Position. In addition, this statement reconciles cash flows from operating activities to operating loss on the Statement of Revenues, Expenses and Changes in Net Position.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

CONDENSED FINANCIAL STATEMENT INFORMATION

Statement of Net Position

A summarized comparison of AZPM's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position at June 30, 2020 and 2019 is as follows:

		2020		2019
Assets Current assets Noncurrent assets other than capital assets Capital assets	\$	25,682,044 3,466,483 1,731,192	\$	22,927,448 3,570,387 2,009,687
Total assets	_	30,879,719		28,507,522
Total deferred outflows of resources	_	1,139,150		788,796
Liabilities Current liabilities Noncurrent liabilities Total liabilities	_	891,395 6,085,545 6,976,940	_	836,335 5,151,109 5,987,444
Total deferred inflows of resources	_	513,900		777,355
Net position Investment in capital assets Restricted - nonexpendable Restricted - expendable Unrestricted		1,731,192 2,123,057 1,692,232 18,981,548		2,009,687 2,069,052 1,515,691 16,937,089
Total net position	\$	24,528,029	\$	22,531,519

For the year ended June 30, 2020, total net position increased by \$1,996,510, or 8.9%, which is mainly due to bequests of \$1,105,734. In addition, AZPM received \$277,121 in CARES Act funding allocated from The Corporation for Broadcasting.

For the year ended June 30, 2019, total net position increased by \$5,260,479, or 30.5%, which is mainly due to an increase in bequests of \$3,100,789 as well as a reduction in expense for Arizona Public Media's portion of Pension and Other Post Employment Benefit (OPEB) of \$934,626.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

CONDENSED FINANCIAL STATEMENT INFORMATION (CONTINUED)

Statement of Net Position (Continued)

Current assets consist primarily of cash and cash equivalents, short term investments, receivables and prepaid expenses. Current liabilities consist primarily of accounts payable, accrued liabilities and unearned revenue. Current assets are sufficient to meet current obligations.

Statement of Revenues, Expenses and Changes in Net Position

A summarized comparison of AZPM's operations for the years ended June 30, 2020 and 2019 is as follows:

	2020			2019
Operating revenues:		_		
Grants and contracts	\$	27,711	\$	106,914
Auxiliary enterprises		1,146,479		1,080,698
Total operating revenues		1,174,190	_	1,187,612
Operating expenses:				
Program services:				
Programming and production		6,245,949		5,768,794
Broadcasting		1,421,618		1,571,549

Increase in net position	\$	1,996,510	\$	5,260,479

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

CONDENSED FINANCIAL STATEMENT INFORMATION (CONTINUED)

Statement of Revenues, Expenses and Changes in Net Position (Continued)

Operating revenues and expenses - In fiscal year 2020, AZPM's operating revenues decreased by \$13,422, or 1.1% over fiscal year 2019, which is due to a decrease in grant revenues.

In fiscal year 2019, AZPM's operating revenues increased by \$23,031, or 2.0%, over fiscal year 2018, which is due to an increase in grant revenues.

In fiscal year 2020, operating expenses increased by \$1,328,936, or 11.8%. Program services, which consist of programming and production, broadcasting, and public information and promotion expenses, increased approximately \$569,103, or 7.2%. Supporting services, which consist of management and general and fundraising and membership development expenses, increased approximately \$759,833, or less than 22.9%. For both program services and supporting services, this is mainly due to an increase in salary and an increase to pension and OPEB expenses. The University of Arizona implemented a Career Architecture Plan (UCAP) that established a new architecture and market driven pay scale. AZPM has several positions that were affected by UCAP. Given the scope of the project, the University has set an implementation plan to incrementally increase affected positions over a 5-year timeline. In addition, AZPM converted some part-time positions to full time.

In fiscal year 2019, operating expenses increased by \$124,946, or 1.1%. Program services, which consist of programming and production, broadcasting, and public information and promotion expenses, increased approximately \$126,798, or 1.6%, primarily due to a new antenna located in Cochise County, which will provide greater coverage to Southern Arizona, as well as a news room remodel, which allows for greater collaboration of our news staff. Supporting services, which consist of management and general and fundraising and membership development expenses, decreased approximately \$1,852, or less than 0.1%, primarily due to a decrease in pension and OPEB expenses. There were increases for development fees relating to the bequests that were received. In addition, the UA Foundation changed its policy regarding the assessment of development fees to include all gifts \$1,000 and greater. Prior to this change, the fee was assessed on gifts \$5,000 and greater.

Nonoperating revenues – In fiscal year 2020, nonoperating revenues decreased approximately \$1,852,111, or 12.2%. The general appropriation from the University decreased approximately \$152,863, or 11.8%, this was due to a budget reduction of 4% as well as a reduction in allocation for the cost of telecommunication services from the University, which had previously been expensed. Donated facilities and administrative support (indirect administrative support) provided by the University increased by \$83,941, or 2.2%, which is the result of a increase in direct expense base for the calculation. The value is calculated using the Corporation for Public Broadcasting's (CPB) IAS Standard Method, which is a new method implemented in fiscal year 2020. CPB grants increased by \$277,121, or 17.4%, which is due to AZPM's allocation of the CARES Act that was appropriated by congress to CPB. Subscription and membership revenue increased by \$483,160, or 12.9%, which is primarily due to continued growth of the sustainer giving campaign and successful pledge drives.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

CONDENSED FINANCIAL STATEMENT INFORMATION (CONTINUED)

Statement of Revenues, Expenses and Changes in Net Position (Continued)

Business and underwriting revenue decreased \$294,241, or 18.0%, as a result of cancellation of contracts due to the effects of business closures from COVID 19. Other gifts and nonoperating revenues decreased by approximately \$2,249,229, or 42.3%, which is mainly due to several large bequests that were received in fiscal year 2019.

In fiscal year 2019, nonoperating revenues increased approximately \$3,064,316, or 25.3%. The general appropriation from the University increased approximately \$33,974, or 2.7%. Donated facilities and administrative support (indirect administrative support) provided by the University increased by \$130,335, or 2.2%, which is the result of a increase in direct expenses. The value is calculated using the Corporation for Public Broadcasting's (CPB) Other Sponsored Activities Method. CPB grants increased by \$74,846, or 4.9%. Subscription and membership revenue increased \$32,160, or 0.9%, which is primarily due to continued growth of the sustainer giving campaign and successful pledge drives. Business and underwriting revenue increased \$171,585, or 11.7%, primarily due to an increase in underwriting contracts. Other gifts and nonoperating revenues increased by approximately \$2,621,416, or 97.1%, which is mainly due to several large bequests that were received in fiscal 2019.

Capital Assets and Debt Analysis

AZPM had \$1,731,192 and \$2,009,687 in capital assets, net of accumulated depreciation at June 30, 2020 and 2019. Title to these assets resides with the University, which allocates custody of the assets to AZPM for its operational needs.

AZPM does not separately issue long-term debt and is not currently engaged in any long-term financing transactions.

Contacting AZPM

This management report is designed to provide a general overview of AZPM's finances and to show AZPM's accountability for the revenue it received. If you have other questions on this report or need additional information, contact the Chief Financial Officer at Arizona Public Media, P.O. Box 210067, Tucson, AZ 85721 or call (520)-621-KUAT.

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED JUNE 30, 2020 AND 2019

1. Description of organization and summary of significant accounting policies:

Description of business:

The accounting policies of Arizona Public Media (AZPM or the Organization) conform to accounting principles generally accepted in the United States of America (GAAP) applicable to governmental colleges and universities engaged in business-type activities as promulgated by the Governmental Accounting Standards Board (GASB) and the Financial Reporting Guidelines published by the Corporation for Public Broadcasting (CPB), unless those pronouncements conflict with GASB pronouncements.

Reporting entity:

Arizona Public Media is a division of the University of Arizona (the University or U of A), which functions as a public communications entity. KUAT-TV, KUAT-FM and KUAZ/KUAZ-FM (the Stations) are licensed by the Federal Communication Commission (FCC) as noncommercial, educational broadcasting stations. For financial statement purposes, KUAT-TV includes KUAT-TV, KUAS-TV, KUAT-DT, and KUAS-DT, and also provides a production and distribution service, which operates an Education Broadband Service (EBS) and a Multipoint Distribution System (MDS) in conjunction with satellite, microwave and internet services to provide instructional programming services.

The financial statements include all funds directly controlled by Arizona Public Media. Fiscal responsibility remains with the University.

Basis of accounting:

The basis of accounting relates to the timing of the measurements made and determines when revenues and expenses are recognized in the accounts and reported in the financial statements. The financial statements of AZPM are reported using the economic resources measurement focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. All interdepartmental activity is eliminated.

Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

Financial statement presentation:

The financial statements include Statements of Net Position, Statements of Revenues, Expenses and Changes in Net Position and Statements of Cash Flows.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

1. Description of organization and summary of significant accounting policies (continued):

Financial statement presentation (continued):

The Statements of Net Position provide information about the assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position at the end of the year. Assets and liabilities are classified as either current or noncurrent. Deferred outflows/inflows of resources are resources that will be consumed or acquired in a future reporting period. Net position is classified according to external restrictions or availability of assets to satisfy obligations. Investment in capital assets represents the cost of capital assets, net of accumulated depreciation. Nonexpendable restricted net position represents gifts received for endowment purposes, the corpus of which may not be expended. Expendable restricted net position represent grants, contracts, gifts and other resources that have been externally restricted for specific purposes. Unrestricted net position includes the remaining amounts of net position, including those that have been designated by management to be used for other than general operating purposes.

The Statements of Revenues, Expenses and Changes in Net Position provide information about AZPM's financial activities during the year. Revenues and expenses are classified as either operating or nonoperating and all changes in net position are reported, including capital contributions and additions to endowments. Generally, revenues generated by AZPM for services are considered to be operating revenues. Other revenues, such as University appropriations and gifts, are not considered generated from operations and are reported as nonoperating revenues. Operating expenses include the gain (loss) on disposal of capital assets.

The Statements of Cash Flows provide information about AZPM's sources and uses of cash and cash equivalents during the year. Increases and decreases in cash and cash equivalents are classified as operating, noncapital financing, capital financing or investing activities.

Cash and cash equivalents:

The Organization's cash and cash equivalents are held by the University and by the University of Arizona Foundation (Foundation).

Funds held by the University of Arizona:

The University acts as a collection and disbursement agent on behalf of AZPM. Funds held by the University represent the excess of cash collected over cash disbursed and are due on demand. Therefore, these amounts are considered cash and cash equivalents for purposes of reporting cash flows.

Under Arizona state law and Board of Regents' policies, the University may invest its pooled operating funds in collateralized time certificates of deposit and repurchase agreements with commercial banks, United States treasury securities and other federal agency securities or in the government investment pool administered by the State Treasurer's office. Arizona Revised Statutes requires collateral for deposits at 102 percent of all deposits of the University not covered by federal deposit insurance.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

1. Description of organization and summary of significant accounting policies (continued):

Funds held by the University of Arizona Foundation:

Amounts on deposit with the Foundation are cash collected and invested for AZPM by the Foundation. The balance is due to AZPM on demand. Therefore, these amounts are considered cash and cash equivalents for purposes of reporting cash flows.

The Foundation invests such funds in a combination of fixed income securities, government obligations, treasury obligations, cash and cash equivalents, and other federal agency obligations in order to achieve a diversified portfolio.

Fair value measurements:

Fair value is defined as the price to sell an asset or transfer a liability between market participants in an orderly exchange in the principal or most advantageous market for that asset or liability. Mutual funds are valued at quoted market prices. The fair value for the commingled funds and qualifying alternative investments is determined based on the investment's net asset value as a practical expedient. Considerable judgment is required in interpreting market data used to develop the estimates of fair value. Accordingly, the estimates presented in the financial statements are not necessarily indicative of the amounts that could be realized in a current market exchange. The use of different market assumptions and estimation methodologies may have a material effect on the estimated fair value.

Accounts receivable:

Accounts receivable consist primarily of pledge receivables and are recognized as revenues in the period the promise is received. Conditional promises to give are recognized when the conditions on which they depend on are substantially met. Unconditional promises to give are recorded at net realizable value.

The carrying amount of accounts receivable is reduced by a valuation allowance that reflects management's best estimate of amounts that will not be collected. The allowance for doubtful accounts is based on management's assessment of the collectibility of specific doubtful accounts and the aging of accounts receivable. Receivables are written off when deemed uncollectible. The Organization has recorded allowances for doubtful accounts of \$248,180 and \$218,000 at June 30, 2020 and 2019.

Endowment investments:

Endowment assets have been donated to AZPM and are permanently restricted by the donor. Endowment assets are held and invested by the University and Foundation in an external investment pool at June 30, 2020 and 2019. At June 30, 2020 and 2019, the external investment pool invests in a variety of asset classes, including common stocks, fixed income, foreign investments, private equity and hedge funds. At June 30, 2020 and 2019, the weighted average maturity of investments was approximately four years. The investment pools are not rated.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

1. Description of organization and summary of significant accounting policies (continued):

Endowment investments (continued):

Investments are carried at fair value and realized and unrealized gains and losses are reflected as nonoperating revenues and expenses in the Statements of Revenues, Expenses and Changes in Net Position.

The following is the spending policy for investments held at the University: Arizona State law permits the University to expend the entire net appreciation of endowment fund investments. The Foundation's Investments Committee is responsible for oversight of the Pool. For fiscal year 2020, the expendable rate was established at 4% based on a twelve-quarter rolling average fair market value of principal account balances as of December 31, 2019.

The following is the spending policy for investments held at the Foundation: the Foundation's policy is to payout a percentage of the average fair value of the corpus of an endowment at the calendar year-end of the three previous years. When determining the payout rate for endowment funds, the Investment Committee considers actual return on the investments, current payout rate, payout rates established by other university endowments and general economic conditions. For fiscal year 2020, the payout rate was established at 4%.

Capital assets, net:

Capital assets, which include transmission, antenna, tower, studio, equipment and furniture, fixtures and equipment are reported in the financial statements. Capital assets are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost, if actual cost is not available. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Transmission, antenna and tower 15 years Studio, equipment and furniture, fixtures and equipment (FF&E) 5 - 7 years

Estimated useful lives of assets outside of the above classes are based on their estimated useful lives. Interest is capitalized in connection with the construction of major facilities. Capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset's estimated useful life.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

1. Description of organization and summary of significant accounting policies (continued):

Compensated absences:

Compensated absences and compensatory time is earned at rates dependent on the length of employment and can be accumulated to a specified maximum number of days. Accordingly, these benefits are accrued as a liability in the financial statements for the maximum number of days. Upon termination or retirement, a set number of accrued vacation and compensatory hours will be paid to employees.

Deferred outflows and inflows of resources:

The Statements of Net Position includes separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense in future periods. Deferred inflows of resources represent an acquisition of net position that applies to future periods and will be recognized as a revenue in future periods.

Postemployment benefits:

For purposes of measuring the net pension and other postemployment benefits (OPEB) liabilities or assets, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The plan's investments are reported at fair value.

Revenues and support recognition:

Federal grants, contracts and appropriations and nongovernmental grants and contracts are accounted for as exchange transactions and are recorded as operating revenue when earned. Advances in excess of costs incurred under grants and contracts are deferred and recognized as revenue when the related expense is incurred.

Auxiliary enterprise revenue results mainly from the sale of production services, lease of broadcast rights and video sales of programming. In addition, AZPM leases certain excess capacity EBS and MDS frequencies and other spectrum to third-parties. All such revenue is reported as operating revenues when services have been provided or products have been shipped.

As a division of the University of Arizona, AZPM receives an annual appropriation from the University. The appropriation is reported as nonoperating revenue in the year appropriated.

Subscription and membership income are considered unconditional promises to give and are reported as unrestricted nonoperating revenues in the period the pledge is made. An allowance is made for uncollectible accounts.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

1. Description of organization and summary of significant accounting policies (continued):

Revenues and support recognition (continued):

Revenue related to program underwriting is recognized as unrestricted nonoperating revenue in the period the agreement is executed.

Other gifts received for the purpose of supporting programming costs are recognized as nonoperating revenues in the period the promise to give is made. CPB funding is contingent on certain performance factors and, as a result, is recognized as unrestricted nonoperating revenue in the year received. Other gifts are considered to be unrestricted unless specifically restricted by the donor. AZPM records donor-restricted gifts that have not been expended in the current year as restricted net position.

Indirect administrative support from the University consists of allocated institutional support incurred by various other divisions of the University for which AZPM receives benefits. The fair value of this support is recognized in the Statements of Revenues, Expenses and Changes in Net Position as donated facilities and administrative support from the University and also as an expense. For the year ended June 30, 2020 and 2019, indirect support was calculated using the University's indirect rate modified to exclude certain cost components that do not benefit AZPM.

Functional allocation of expenses:

Expenses that can be identified with a specific program of supporting service are charged directly to the program according to their natural expense classification. Costs incurred that share a common purpose are allocated based on total personnel costs or other systematic bases.

Income taxes:

The University is tax exempt as an integral part of the State of Arizona and exempt from federal income tax when engaging in activities related to the exempt purpose of state colleges and universities to include: research and discovery, teaching and learning, outreach and public service, and fostering national or international amateur sports competition. However, the University is not exempt from income tax imposed on activities that are substantially unrelated to those exempt purposes. Management is not aware of any activities conducted by AZPM that are subject to unrelated business income tax. Accordingly, no provision is made for income taxes in the accompanying financial statements.

Subsequent events:

The Organization's management has evaluated the events that have occurred subsequent to June 30, 2020 through November 19, 2020, the date that the financial statements were available to be issued. Management has no responsibility to update these financial statements for events and circumstances occurring after this date.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

2. Cash and cash equivalents and endowment investments:

The Organization's cash and cash equivalents and investments consist of the following at June 30, 2020 and 2019:

	2020	2019
Cash and cash equivalents		
Held by the University of Arizona	\$ 15,964,806	\$ 14,078,573
Held by the University of Arizona Foundation	8,234,724	7,286,890
	\$ 24,199,530	\$ 21,365,463
Endowment investments:		
Endowment held by the University of Arizona	\$ 1,431,378	\$ 1,575,902
Endowment held by the University of Arizona Foundation	2,034,605	1,976,133
	\$ 3,465,983	\$ 3,552,035

AZPM's cash and investments held with the Foundation represent a portion of the Foundation's investment pool portfolio; however, AZPM's portion is not identified with specific investments. The University of Arizona Foundation's pool invests in U.S. Treasury, U.S. agencies, mutual funds, certificates of deposit, and corporate bonds and equities. A summary of the University's risk policies for deposits and investments follows:

Interest rate risk:

The University does not have a formal policy for interest rate risk.

Custodial credit risk deposits:

In the case of deposits, this is the risk that in the event of bank failure, AZPM's deposits may not be returned. University policy for its operating funds requires all repurchase agreements to be collateralized with government debt securities or cash balances held in the comptroller's demand account. Beyond this requirement and those established by Statute or the Board, the University does not have a policy that specifically addresses custodial risk.

Credit risk:

With regard to credit risk, University policy restricts investment of the operating funds to certificates of deposit and collateralized repurchase agreements, U.S. Treasury securities, federal agency securities, investment grade corporate bonds or the government investment pool administered by the State Treasurer's Office. When investing operating funds, University policy requires corporate bonds and notes to be of investment grade quality, rated Baa or higher by Moody's Investors Service, at the time of purchase.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

2. Cash and cash equivalents and endowment investments (continued):

Credit risk (continued):

The University does not have a formal policy that specifically addresses credit risk over endowment funds. AZPM endowment funds are held in the Foundation's Endowment Pool, which is not rated. The Foundation's Investment Committee manages the credit risk of the Pool's investments.

Concentration of credit risk:

Other than U.S. Treasury securities and other federal agency securities, which can represent greater than 5% of total investments, University policy limits investment in a single issuer to 5% or less of the fair value of the total portfolio. Except for U.S. Treasury securities, the University does not have an investment in any single issuer that exceeds 5% of the overall portfolio.

3. Fair value measurements:

The Organization measures and categorizes its investments using fair value measurement guidelines established by GAAP. These guidelines establish a three-tier hierarchy of inputs to valuation techniques used to measure fair value, as follows:

- Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Organization has the ability to access.
- Level 2 Inputs, other than quoted market prices included within Level 1, are observable, either directly or indirectly.
- Level 3 Inputs are unobservable and significant to the fair value measurement.

Other investments at fair value - Investments for which fair value is measured using the practical expedient, net asset value per share (or its equivalent). Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed. Investments that are included in this category generally include private fund investment structures and limited party interest, without quoted prices.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

3. Fair value measurements (continued):

At June 30, 2020, the fair value of assets measured on a recurring basis is as follows:

	Fair value	investments at fair value	Level 1	Level 2	Level 3
External investment pools: Endowment held by University of Arizona Endowment held by the University of Arizona	\$ 1,431,378	\$ 1,431,378	\$ -	\$ -	\$ -
Foundation	2,034,605	2,034,605			
	\$ 3,465,983	\$ 3,465,983	\$ -	\$ -	\$ -

Othor

At June 30, 2019, the fair value of assets measured on a recurring basis is as follows:

	Fair value	Other investments at fair value	Level 1	Level 2	Level 3
External investment pools: Endowment held by University of Arizona Endowment held by the University of Arizona	\$ 1,575,902	\$ 1,575,902	\$ -	\$ -	\$ -
Foundation	1,976,133	1,976,133			
	\$ 3,552,035	\$ 3,552,035	<u>\$</u> -	\$ -	\$ -

The fair value of a participant's portion in the University of Arizona and University of Arizona Foundation's investment pools approximates the value of that participant's pool shares and the participant's shares are not identified with specific investments. The investment pool is not registered with the Securities and Exchange Commission as an investment company and there is no regulatory oversight of its operations. There are no unfunded commitments or redemption restrictions related to these investments.

The University of Arizona and University of Arizona Foundation's investment pool invests primarily in U.S. Treasury, U.S. agencies, mutual funds, certificates of deposit, and corporate bonds and equities.

7. Investment income (loss), net:

A summary of investment income (loss) by station at June 30 is as follows:

	KUAT-TV	KUAT-FM	KUAZ	June 30, 2020 Total	June 30, 2019 Total
Interest and dividends Net unrealized loss	\$ 129,902 (198,392)	\$ 44,273 (90,621)	\$ 28,882 (45,258)	\$ 203,057 (334,271)	\$ 185,439 (39,104)
	<u>\$ (68,490)</u>	\$ (46,348)	\$ (16,376)	<u>\$ (131,214)</u>	\$ 146,335

8. Related party transactions:

AZPM receives a portion of its revenues and support from the University in the form of a general appropriation for operation purposes totaling \$1,142,465 and \$1,295,328 for the years ended June 30, 2020 and 2019.

AZPM receives administrative support from the University in the form of legal and accounting services, use of facilities, repairs and maintenance, and other administrative support. In addition, facilities not directly related to AZPM stations are owned by the University and used by AZPM. The indirect support value is calculated based on the Other Sponsored Activities Method developed by the Corporation for Public Broadcasting. The indirect support, recorded in nonoperating revenues, totaled \$1,672,392 and \$1,588,451 for the years ended June 30, 2020 and 2019.

9. Contingencies:

AZPM is subject to audit by its funding agencies. During 2018, AZPM was audited by CPB for the period from July 1, 2014 to June 30, 2016. The outcome of the audit resulted in an immaterial refund due to CPB. Contingent liabilities to other funding agencies, if any, have not been determined at June 30, 2020 and 2019. AZPM's management believes that no such liabilities exist at June 30, 2020 and 2019.

COVID-19:

The COVID-19 outbreak in the United States has caused business disruption. The extent of the COVID-19 impact on operational and financial performance will depend on certain developments, including duration and spread of the outbreak, impact on the University, customers, members, donors, employees and vendors, all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact the financial statements is uncertain.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

10. Retirement plans:

As part of the University, AZPM participates in a cost-sharing, multiple-employer defined benefit pension plan and two defined contribution pension plans.

Defined benefit plan:

The Arizona State Retirement System (ASRS) administers a cost-sharing multiple-employer defined benefit pension plan. Full benefit eligible Classified Staff are required, and full benefit eligible AZPM professionals have the option to participate in the ASRS defined benefit plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. That report may be obtained by visiting www.azasrs.gov.

Benefits provided - The ASRS provides retirement and survivor benefits. State statute establishes benefits terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

^{*}with actuarially reduced benefits

Retirement benefits for members, who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earning. Members with a membership date on or after September 13, 2013 are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

10. Retirement plans (continued):

Defined benefit plan (continued):

Contributions - In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability.

For the years ended June 30, 2020 and 2019, statute required active ASRS members to contribute at the following actuarially determined rates on members' annual covered payroll:

	2020	2019
Employee contribution rate	11.94 %	11.64 %
Employer contribution rate	11.45 %	11.18 %

In addition, the University/AZPM was required by statute to contribute for retired members who worked for the University/AZPM in positions that would typically be filled by an employee who contributes to the ASRS. For the years ended June 30, 2020 and 2019, the actuarial determined rates on retired members' annual covered payroll were as follows:

	2020	2019
Employer contribution rate	10.29 %	10.41 %

AZPM's contributions to the pension plan for the years ended June 30, 2020 and 2019 were \$342,181 and \$350,288.

Pension liability - At June 30, 2020 and 2019, AZPM reported a liability of \$4,319,354 and \$3,947,212 for its proportionate share of the ASRS' net pension liability. The 2020 net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined using updated procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2018 to the measurement date of June 30, 2019. The 2019 net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined using updated procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2017 to the measurement date of June 30, 2018. The total pension liability as of June 30, 2018 reflects changes in actuarial assumptions based on the results of an actuarial experience study for the 5-year period ended June 30, 2016, including decreasing the discount rate from 8% to 7.5%, changing the projected salary increases from 3% - 6.75% to 2.7% - 7.2%, decreasing the inflation rate from 3% to 2.3%, and changing the mortality rates.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

10. Retirement plans (continued):

Defined benefit plan (continued):

AZPM's proportion of the net pension liability was based on AZPM's actual contributions to the plan relative to the total of the University's contributions. The University's contributions for the years measured as of June 30, 2019 and 2018 was 4.28% and 4.05% of the total of all participating employer's contributions (increase of 0.23%). AZPM's proportion measured as of June 30, 2019 and 2018 was 0.69% and 0.70% of the total University's contribution (decrease of 0.01%).

Pension expense and deferred outflows/inflows of resources - For the years ended June 30, 2020 and 2019, AZPM recognized pension expense for ASRS of \$216,181 and \$788,160. At June 30, 2020 and 2019, AZPM reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		June 30, 2020				June 30, 2019			
	Deferred		Deferred		Deferred		Deferred		
	οι	itflows of	inflows of		outflows of		inflows of		
	re	esources	r	esources	r	esources	r	esources	
Differences between expected and actual experience	\$	78,029	\$	812	\$	108,740	\$	21,762	
Net difference between projected and actual earnings on pension plan investments		_		97,082		_		94,922	
investinents		_		37,002		_		34,322	
Changes in assumptions		18,255		172,004		104,451		349,974	
Changes in proportion and differences between employer contributions and proportionate share of contributions		229,697		721		152,963		8,202	
Contributions subsequent to the measurement date		342,181			_	350,288	_		
	<u>\$</u>	668,162	<u>\$</u>	270,619	<u>\$</u>	716,442	<u>\$</u>	474,860	

The \$342,181 reported as deferred outflows of resources related to ASRS pensions resulting from AZPM's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pensions will be recognized in pension expense as follows:

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

10. Retirement plans (continued):

Defined benefit plan (continued):

Years ending <u>June 30</u> ,	
2021	\$ 90,236
2022	(42,226)
2023	(18,644)
2024	25,996
2025	-

Actuarial assumptions - The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2018
Actuarial roll forward date	June 30, 2019
Actuarial cost method	Entry age normal
Investment rate of return	7.5%
Projected salary increases	2.7% - 7.2%
Inflation	2.3%
Permanent benefit increase	Included
Mortality rates	2017 SRA Scale U-MP

Actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on ASRS pension plan investments was determined to be 7.5% using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

10. Retirement plans (continued):

Defined benefit plan (continued):

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	:	Long-term expected geometric real rate of
Asset class	Target allocation	return
Equity	50 %	6.09 %
Credit	20 %	5.36 %
Interest rate sensitive bonds	10 %	1.62 %
Real estate	20 %	5.85 %
	100 %	

Discount rate - At June 30, 2019 the discount rate used to measure the ASRS total pension liability was 7.5%. At June 30, 2018, the discount rate used to measure the ASRS total pension liability was 7.5%, which was a decrease of 0.5 from the discount rate used as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the AZPM's proportionate share of the ASRS net pension liability to changes in the discount rate - The following table presents the AZPM's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what AZPM's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5%) or 1 percentage point higher (8.5%) than the current rate:

	Current 1% decrease discount rate (6.5%) (7.5%)		1% increase (8.5%)	
AZPM's proportionate share of the net pension liability at June 30, 2020	\$ 6,147,435	\$ 4,319,354	<u>\$ 2,791,543</u>	
AZPM's proportionate share of the net pension liability at June 30, 2019	\$ 5,626,838	\$ 3,947,212	<u>\$ 2,543,905</u>	

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

10. Retirement plans (continued):

Defined benefit plan (continued):

Pension plan fiduciary net position - Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report.

Defined contribution plans:

Plan description - In accordance with ARS §15-1628, defining the authority under which benefit terms are established or may be amended, University faculty, academic professionals, and administrative officers have the option to participate in defined contribution pension plans. For the years ended June 30, 2020 and 2019, plans offered by the Teachers Insurance Annuity Association/College Retirement Equities Fund (TIAA/CREF) and Fidelity Investments Tax-Exempt Services Company (Fidelity) were approved by the Arizona Board of Regents. Benefits under these plans depend solely on the contributed amounts and the returns earned on investments of those contributions. Contributions made by members vest immediately; University contributions vest after five years of full-time employment. Nonvested contributions held by the University earn interest. Member and University contributions and associated returns earned on investments may be withdrawn upon termination of employment, death or retirement. The distribution of member contributions and associated investment earnings are made in accordance with the member's contract with the applicable insurance and annuity companies.

Funding policy - The Arizona State Legislature establishes the contribution rates for active plan members and the University/AZPM. For the years ended June 30, 2020 and 2019, plan members and the University/AZPM were each required by statute to contribute an amount equal to 7% of a member's compensation.

Pension liability - At June 30, 2020 and 2019, AZPM reported a liability of \$48,620 and \$35,889 for nonvested defined contributions. If individuals terminate employment prior to vesting, any nonvested University/AZPM contributions are retained by the University/AZPM.

Pension expense - For the years ended June 30, 2020 and 2019, AZPM recognized pension expense for Defined Contribution Plans of \$63,247 and \$59,272. For the years ended June 30, 2020 and 2019, no forfeitures were utilized to reduce AZPM's pension expense.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

11. Other post-employment benefits (OPEB):

Other postemployment benefits (OPEB) provided as part of University/AZPM employment include the Arizona Department of Administration (ADOA) sponsored single-employer defined benefit postemployment plan, as well as the ASRS sponsored cost-sharing, multi-employer defined benefit plan for the Long-Term Disability Fund and the Health Benefit Supplement Fund. Although an ASRS net OPEB liability has been recorded at June 30, 2020, this plan has not been further disclosed due to the relative insignificance to AZPM's financial statements.

Changes in AZPM's OPEB liability during the year ended June 30, 2020 was as follows:

		2020	 2019
Beginning balance	\$	1,168,008	\$ 1,273,191
Increases		578,431	-
Decreases			 (105,183)
Ending balance	<u>\$</u>	1,746,439	\$ 1,168,008

Arizona Department of Administration:

Plan description - The Arizona Department of Administration (ADOA) administers a single-employer defined benefit postemployment plan that provides medical and accident benefits to retired State employees, including University/AZPM employees and their dependents. Title 38, Chapter 4 of the A.R.S. assigns the authority to establish and amend the benefit provisions to the Arizona State Legislature. The ADOA pays the medical costs incurred by retired employees minus a specified premium amount, which is paid for entirely by the retiree or on behalf of the retiree. These premium rates are based on a blend of active employee and retiree experience, resulting in a contribution basis that is lower than the expected claim costs for retirees only, which results in an implicit subsidization of retirees by the State. ADOA does not issue a separate, publicly available financial report.

A portion of the ADOA plan's implicit rate subsidy represents a liability to the University/AZPM for its proportionate share of the total OPEB liability. The total OPEB liability is allocated to the University, and to AZPM, based on its percentage of contributions to the ADOA medical and dental plans.

Benefits Provided - The ADOA provides medical and accident benefits to retired State employees and their dependents. Dental and vision benefits are also available, but are not valued as there is no implicit subsidization in the retiree rates.

Funding policy - The ADOA's current funding policy for the single-employer plan is pay-as-you-go for OPEB benefits. There are no dedicated assets at this time to offset the total OPEB liability.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

11. Other post-employment benefits (OPEB) (continued):

Arizona Department of Administration (continued):

OPEB Liability - At June 30, 2020 and 2019, AZPM reported a liability of \$1,738,774 and \$1,164,777 for its proportionate share of the ADOA's total OPEB liability. The 2020 total OPEB liability was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date. The total OPEB liability as of June 30, 2019, reflects a decrease in the discount rate due to changes in the bond index. The 2019 total OPEB liability was measured as of June 30, 2018 and was determined by an actuarial valuation as of that date. The total OPEB liability as of June 30, 2018 reflects an increase in the discount rate due to changes in the bond index.

The University's proportion measured as of June 30, 2019 and 2018, was 19.70% and 19.13% (increase 0.57%). AZPM's proportion measured as of June 30, 2019 and 2018, was 0.69% and 0.70% of the total University's contribution (decrease of 0.01%).

OPEB Expense and Deferred Outflows/Inflows of Resources - For the years ended June 30, 2020 and 2019, AZPM recognized OPEB expense for ADOA of \$171,525 and \$70,498. At June 30, 2020 and 2019, AZPM reported deferred outflows of resources and deferred inflows of resources related to other postemployment benefits from the following sources:

		June 3	0, 20)20		0, 20	019

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED JUNE 30, 2020 AND 2019

11. Other post-employment benefits (OPEB) (continued):

Arizona Department of Administration (continued):

Benefit projections assume the specified premium amount will follow the current pattern of practice of being paid for entirely by the retiree or on behalf of the retiree. The specified premium amounts are projected to increase at the contribution trend rates noted above. Actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

Discount rate - The discount rate was based on the Fidelity "20-Year Municipal GO AA Index."

Sensitivity of the AZPM's proportionate share of the ADOA's total OPEB liability - The following table presents the AZPM's proportionate share of the total OPEB liability calculated using the discount rate of 3.13%, as well as what AZPM's proportionate share of the total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.13%) or 1 percentage point higher (4.13%) than the current rate:

	1% decrease (2.13%)	Current discount rate (3.13%)	1% increase (4.13%)
AZPM's proportionate share of the total OPEB liability at June 30, 2020	\$ 2,088,143	\$ 1,738,774	\$ 1,468,072
	1% decrease (2.87%)	Current discount rate (3.87%)	1% increase (4.87%)
AZPM's proportionate share of the total OPEB liability at June 30, 2019	\$ 1,363,039	<u>\$ 1,164,777</u>	\$ 1,007,650

The following table presents the University's proportionate share of the total OPEB liability calculated using the healthcare cost and contribution trend rates stated above, as well as what the University's proportionate share of the total OPEB liability would be if it were calculated using healthcare cost and contribution trend rates that are 1 percentage point lower or 1 percentage point higher than the current rates:

	 decrease in rend rates	Cu	rate	_,	increase in rend rates
AZPM's proportionate share of the total OPEB liability at June 30, 2020	\$ 1,433,080	\$	1,738,774	\$	2,142,875
AZPM's proportionate share of the total OPEB liability at June 30, 2019	\$ 985,776	\$	1,164,777	\$	1,395,849
