FYI

"Murad Dervish has been expelled from the University following an investigation of the Dean of Students. Both the Office of General Counsel and UAPD are aware of this action and are taking appropriate actions as needed. Given Mr. Dervish's expulsion he is not permitted on campus and if you see him on campus, please contact UAPD - 911 or 520-621-8273 based on your judgment. Please also report any interactions with Mr. Dervish to the Dean of Students 520-621-7057."

[REDACTED] *Urgent* Student Expulsion Situation & Support for Students

Hello all HAS undergraduate students-

We wanted to address a situation that has arisen with a graduate student in the Department of Hydrology and Atmospheric Sciences. What you should know is that this student, Murad Dervish (picture attached) has been expelled from the university as of late last week following an investigation by the Dean of Students. Both the Office of General Counsel and UAPD are aware of this consequence and are taking appropriate actions as needed. Given Mr. Dervish's expulsion he is not permitted on campus and if you see him on campus, please contact UAPD - 911 or 520-621-8273 based on your judgment. Please also report any interactions with Mr. Dervish (might include online interactions as well) to the Dean of Students 520-621-7057 or contact them here <https://deanofstudents.arizona.edu/>.

The University and the department have taken action by moving classes out of JWH 110 and changing door combination codes to all department code-locked doors out of an abundance of caution. We will revisit the shift of classes as time passes and more information becomes available. We do want to stress that this is out of an abundance of caution that these actions are being taken for the department as a whole. For other folks more personally involved, there may be additional actions taken for such individuals. For students whose classroom was moved, they are not to divulge the new location publicly to anyone outside of the class, especially the student who was expelled.

If students are feeling uncomfortable with this situation, we do encourage you to speak with us, or with Department leadership (Dr. Meixner, Department Head: [REDACTED]@email.arizona.edu, Dr. Castro, Associated Department Head: [REDACTED]@email.arizona.edu). We also want students to know that if they feel uncomfortable (even if they are not directly involved), they can make the choice to learn from home. You just need to speak with your instructor and let them know you of your situation. If there are issues with that, please contact us and Dr. Castro.

We know this can be a stressful time for some, and so if you need us we are here. We also want to encourage students to speak to CAPS, should you need additional support (<https://caps.arizona.edu/>). There are also additional specific mental health services at the resources listed below.

Take care,
